**David Baker, Pauline Schnapper : Britain and the Crisis of the European Union** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Britain and the Crisis of the European Union:

This book centres on the effects of the political and later economic crisis which seriously affected the European Union and its impact on the seemingly endless UK debate over Britain's position within the EU.

'The thirty year civil war in the Conservative Party over Britain's membership of the EU is reaching a climax. Baker and Schnapper provide a superb guide both to the bizarre British debate on Europe, and to the deepening crisis of the EU itself, showing how one feeds off the other. This book is essential reading for understanding the deep-seated problems which threaten to overwhelm the European project.' Andrew Gamble, Emeritus Professor of Politics, Department of Politics and International Studies, University of Cambridge, UK 'This outstanding book provides the most comprehensive analysis to date of the UK's troubled relationship with the European Union. Baker and Schnapper's rich analysis chronicles the complex party political, political economy and diplomatic dimensions of the British politics of European integration, while also showing how the EU's own crisis has fed back into and shaped domestic discourses on Europe. It is difficult to think of a better companion volume as we approach the referendum on the UK's EU membership.' Ben Rosamond, Professor of Political Science, University of Copenhagen, Denmark

About the Author David Baker is a retired professor of Politics from the University of Warwick. In 1991 he founded (with Professor Andrew Gamble) the 'Members of Parliament Group' which researched the influence of euroscepticism on the major UK political parties, with a special focus on the Conservative Party. His research is based upon a political economy approach. Pauline Schnapper is a Professor of British Studies at the University of Sorbonne Nouvelle Paris 3 and a fellow of the Institut Universitaire de France.
