**Gerrit Broekstra : Building High-Performance, High-Trust Organizations: Decentralization 2.0** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Building High-Performance, High-Trust Organizations: Decentralization 2.0:

Some vanguard companies have evolved to a higher level of decentralization originating in the enabling-and-autonomy paradigm. A new kind of deep leadership is practiced by these spirit-driven organizations. This book brings together theory and case studies to cover historical origins and developments of both types of decentralization.

About the Author Originally a physicist with a life-long interest in the complexity sciences, Gerrit Broekstra is Professor Emeritus of Organization Behavior at the Nyenrode Business University, the Netherlands. He was previously a professor and dean at the Rotterdam School of Management, Erasmus University, the Netherlands, and a visiting professor at the Kellogg School of Management, Northwestern University, USA.
