Brad Klontz, Rick Kahler : Facilitating Financial Health: Tools for Financial Planners, Coaches, and Therapists (Books24x7. Financepro) before purchasing it in order to gage whether or not it would be worth my time, and all praised Facilitating Financial Health: Tools for Financial Planners, Coaches, and Therapists (Books24x7. Financepro):

2 of 2 people found the following review helpful. Excellent overview for Fin Health HelpBy MarcoinMOProbably the

most concise and clear books I've read on financial health with a wealth of relevant information. I wish this book had been the required reading for my financial counseling course in college. 2 of 2 people found the following review helpful. Excellent book for financial planning professionals By Debbie in Lakelands This is an excellent book for financial planning professionals. As a registered investment advisor and comprehensive financial planner, I found this book to be invaluable to enhancing my practice. I believe that I have better tools for working with clients and their emotional/psychological issues relating to money. Since we all seem to bring out own special emotional connections to money, it's important for a financial advisor to know how to help clients flesh these out - and when an advisor should bring in a therapist. I am looking forward to reading other books by the Drs. Klontz and Rick Kahler to help me learn how to provide better financial life planning and serve my clients with integrity. 1 of 1 people found the following review helpful. Tools to Change Lives By Michael F. Kay Financial advisors...pay attention, you need this book and the information methodology. Even if you already have a life planning practice, this resource is valuable. Thank you Brad for creating this excellence resource.

This new guide presents a new model for helping clients achieve balanced and healthy financial lives- called integrated financial planning. It combines the interior, emotional aspects of finance with exterior financial knowledge and provides the advisor with an expanded set of tools for working with clients to create and maintain financial health. Facilitating Financial Health integrates the fields of psychotherapy, coaching, and financial planning, equipping financial professionals with techniques to enhance their effectiveness by working with both the exterior and interior aspects of a client's financial health. Integrated financial planning encourages you to think beyond the traditional boundaries of your practice and to serve clients far more effectively. Includes a "Decision Tree" with guidelines for deciding when it is appropriate for planners to work with client's interior issues themselves and when it is appropriate to refer clients to or partner with coaches or therapists.
