From Palgrave Macmillan : Financing Long-Term Care in Europe: Institutions, Markets and Models before purchasing it in order to gauge whether or not it would be worth my time, and all praised Financing Long-Term Care in Europe: Institutions, Markets and Models:

Forecasts predict that those in need of long-term care in Europe will double in the next 50 years. This book offers a full understanding of the institutional responses and mechanisms in place to finance old age and provides analysis of demand and supply factors underpinning the development of financial instruments to cover long-term care in Europe.
