**Tom Lipton : Metalworking: Doing It Better** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Metalworking: Doing It Better:

0 of 0 people found the following review helpful. what can I say, the author is down to ...By nohtenbears what can I say , the author is down to earth, a blue collar man. HELL I wish I knew what he has forgotten.5 of 5 people found the following review helpful. Metalworking 2nd. edition By Brad Janacek Same material as first edition that I already have. It's a good book if you don't have it ,but I expected new material.1 of 1 people found the following review helpful. reprint of sink or swim ?By LARRY this book is a great reference and learning tool. there is lots to learn for rookies and vets . if i hadn't read toms first book ,sink or swim i would give this book four stars. i bought the book and a kindle download to read on a long flight. i was very disappointed to find it to be almost a complete reprint of his first book. so pick one or the other and you wont be sorry .

nbsp;Overviewnbsp;This collection of priceless tips, tricks, skills, and experiences from a veteran of the trade is

presented in a way that captures the reader's attention and engages them in the process of furthering their skills. It includes shop-tested descriptions and illustrations of creative and unique techniques and observations from four decades in the metalworking trades. Perfect for hobbyists and veterans alike, and everyone in between, and for those who work out of either small shops or garages, backyard facilities and basements. It will help any metalworker do better work and do it faster! Users will learn about:
