Phillip H Phan, Sarfraz A Mian, Wadid Lamine : Technology Entrepreneurship and Business Incubation:Theory, Practice, Lessons Learned before purchasing it in order to gage whether or not it would be worth my time, and all praised Technology Entrepreneurship and Business Incubation:Theory, Practice, Lessons Learned:

Technology Entrepreneurship and Business Incubation analyzes business incubators worldwide through a series of

empirical and theoretical papers. The authors examine the extent to which business incubators are influential in situations such as nurturing young technology firms, increasing success of new firms, and in developing an ecosystem around these successes. Also examined is the relationship between business incubators and their resource providers, including venture capitalist firms and government agencies. Edited by Phillip Phan (Johns Hopkins Carey Business School), Sarfraz Mian (State University of New York at Oswego), and Wadid Lamine (Toulouse Business School), all leading figures in the field, this book provides both a theoretical framework to conceptualise ideas and a practical guide to influence best practices and innovation in business incubators.
