Joseph R. Pietri : The 15 Ounce Pound: Big Pharma's Plan to Patent Pot before purchasing it in order to gage whether or not it would be worth my time, and all praised The 15 Ounce Pound: Big Pharma's Plan to Patent Pot:

2 of 3 people found the following review helpful. Who, what, why, where, how.....and the "invisible hand".By Don JamesA super quick and interesting read. Lots of real life characters entwined in an overlapping web of cannabis goings on with not the same motives. An interesting thread which also scratches the surface on patents and how some of them are so off the hook and should have never been issued.....Turmeric paste..really?The Dave Watson and his

various names, has me scratching my head and after reading the entire book in 5 hrs, I had to go back and then re read the "you've blown my cover" aspects in the first chapter. I think this is a great follow on from the book *Thai Stick* by Peter Maguire. The conclusions drawn in this book have wiggle room I hope.....read it if you are wondering how legalized or medical marijuana may look in the next 5 yrs. 0 of 1 people found the following review helpful. Monsanto's evil plans further exposed! Superior book. By Veronica Deevers Every single person in America should read this. Not only is our food destroyed, they plan to destroy the greatest plant God put on this earth....well...in America anyway. Thirty other countries have had the intelligence to ban Monsanto. But in America all Monsanto has to do is write checks to the elected to get whatever they want. I miss America. 1 of 3 people found the following review helpful. Great Read.. By Kindle Customer Well written and to the point... The book explains how Big Pharma and the Government want to control every aspect of this industry and keep you and I from growing our own medicine that is provided for all of us via "FREE". Must read. The real reason Cannabis has been outlawed has nothing to do with its effects on the mind and body. MARIJUANA is NOT DANGEROUS. Pot is NOT harmful to the human body or mind. Marijuana does NOT pose a threat to the general public. Marijuana is very much a danger to the oil companies, alcohol, tobacco industries and a large number of chemical corporations. Various big businesses, with plenty of dollars and influence, have suppressed the truth from the people. The truth is if marijuana was utilized for its vast array of commercial products, it would create an industrial atomic bomb! Entrepreneurs have not been educated on the product potential of pot. The super rich have conspired to spread misinformation about an extremely versatile plant that, if used properly, would ruin their companies. POT IS ILLEGAL BECAUSE BILLIONAIRES WANT IT THAT WAY!!!

In the United States, cannabis is currently illegal, but this book investigates how big pharmaceutical companies are looking at an end-game of legality; controlled by them. It examines how the Amsterdam scene has been transformed; how home growers have been manipulated into using inferior techniques; and how companies, with help from the Drug Enforcement Agency (DEA) and "big pharma," are patenting cannabis strains for control and profit. The leadership of the cannabis industry want to legalize marijuana with taxation and regulation, but the pharmaceutical industry cannot take over medical cannabis without first shutting down the scene today. The book predicts that legalized production will be tightly controlled by major players, using the IRS and DEA as a means of removing other growers. Regulation will also control the amount of tetrahydrocannabinol (THC) in each marijuana cigarette, forcing stronger cannabis to be available to medical patients by prescription only. A black market will still exist, so people will still go to jail, and the drug war will go on. With history and explosive, behind-the-scenes looks at big pharma collusion, this book is both an expose; and an in-depth look at the arc of freedom and probable control through use of pharmaceutical patents for marijuana.

About the Author Joseph R. Pietri is a former drug smuggler who is a legal purveyor of cannabis for medicinal purposes and the author of *The King of Nepal*. He lives in Cloverdale, Oregon.
