**Tang Jie, Anthony Ward : The Changing Face of Chinese Management (Working in Asia)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Changing Face of Chinese Management (Working in Asia):

Chinese management has experienced a dramatic change in recent years. In many areas, established ideas about how Chinese management operates are oversimplified and outdated. This book sets out to provide a more realistic portrait

of Chinese management today, and how it has changed dramatically over the past ten years. The portrait of contemporary Chinese management draws on extensive interviews with Chinese managers conducted by the authors. These provide a wealth of concrete illustrations of how managers deal on a daily basis with the opportunities and threats they face.

'Tang and Ward have produced an informed and readable account of the transitions in Chinese Management.' - The China Journal  
About the Author  
A native of Shanghai, Tang Jie was educated in China and England. She has lectured at Fudan University and at the School of Oriental and African Studies of London University. She has worked both in China and Britain helping major British companies establish themselves in China. She is currently engaged in research at the Judge Institute of Management Studies, Cambridge University, and serves as external examiner for the joint Sino-British MBA programme at the University of Wales. Anthony Ward taught Sociology at Lancaster University before spending ten years working at universities throughout China as a special advisor on curriculum development. He is currently working as editorial advisor to the Foreign Languages Press in Shanghai.
