Right on point for anyone who is an arts administrator and needs to either understand what you could be doing better or confirm what you are already doing right. I would recommend this book as a resource for Arts Administration courses - you'll be learning from a seasoned professional who has experienced both successes and challenges in presenting the arts. By Stacy Dutton
The staff and Board of Directors of our theater company, Lantern Theater Company in Philadelphia, keep close tabs on Mr. Kaiser's work and found this installment as useful as his prior books. Easy to read and full of practical advice to guide the development of your artistic and strategic planning, Board participation, and institutional marketing.

Well-written practical recommendations that are equally useful for the uninitiated in the performing arts programming and the connoisseurs. It gives structure to the approach to managing the arts. The years of experience come through clearly in this book. Thank you for sharing Mr Kaiser.

Offers practical advice, based on the notion of a "family" of supporters, for managing healthy arts organizations

"The third in Kaiser's trilogy on managing arts organizations, this volume is prescriptive, straightforward, and realistic."
