the realities of high speed passenger rail systems. It points out which systems are successful, and demonstrates the lack of viability of the Spanish system of HSR.0 of 0 people found the following review helpful. It's a very good book.By Jim Silva Naturesa Various data of the main projects of high-speed trains are presented. The examples are well explained and referenced. The figures are bad. If you are looking for updated information on high-speed trains you need to buy this book.0 of 0 people found the following review helpful. Five StarsBy trischelle Very interesting read about HSR
