Amazing Resource By Lisar This book is wonderful. As a field guide, it adds depth and practical application above and beyond what was in the original 6Ds book. One of my initial takeaways has to do with how I can improve course evaluations. As I spend more time with the book, I'm sure that it will inspire me to improve my learning development skills in additional ways. 0 of 1 people found the following review helpful. By Bo The book and information was well written, but lacks insight into implementation into today's business world or business processes. Templates and usage for the reader at any stage are always a superior idea, because even if your audience does not have the skillset of a seasoned vet, with some support, they could set the stage with some templates and assistance from others.
