recognises that leadership is, in reality, a balance between leading people and managing them. The book is a great balance between the two and ranges from essential management tools to advanced people leadership skills, which I recommend you should be using with your people. A great book to dip into frequently. 0 of 0 people found the following review helpful. Fantastic book

This topic of this book is very timely and relevant. The skills leaders need to manage people successfully has changed with new generations and new technologies.

'A very valuable resource for busy leaders to dip in and out of as time allows.'
